

Forest Heights Homeowners Association Common Area Master Plan

What is a Master Plan

A Master Plan for the Forest Heights Common Area will serve as a guide for future improvements and management of the areas jointly owned and managed by the Forest Heights Home Owners Association (FHHOA). The Master Plan will consider a full range of community needs and desires while preserving the open spaces. The Common Area Master Plan will include a preferred design with critical elements, funding options, an implementation strategy, and a phasing plan. Community input is critical to the success of the Master Plan.
